Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant proposed to amend claims 1, 25 and 35 to specify that only the light that has been distorted is to be diverged or converged. The applicant also proposed to include the limitations of claim 32 into independent claims 28 and 34. The examiner agreed that the proposed amendments should overcome the present rejection based on Shu (US 6,151,103). The examiner will conduct an updated search. The applicant will file the proposed amendments in an After Final Amendment, that the examiner agreed to enter and review.

It is not necessary for the applicant's representative to provide a separate record of the interview..
